

PLUZZABLES

Deliveries Edition

(February 1, 2022)

PLUZZABLES are “playable puzzles”, a series of games you play during or after assembling a puzzle.

In the **Deliveries** edition, players assemble a town map in order to deliver items to secret locations around town.

Components:

- 7 pieces to frame 17x17 magnetic brainteaser puzzle
- 70 magnetic town and road tiles
- two sets of delivery cards for 49 secret locations
- 84 game pieces
- 4 trucks
- magnetic receptive sheet to hold magnetics
- dice
- web app for “take a chance” actions.

Note that you will have either wooden or magnetic puzzle pieces.

Item Tiles:

Building Tiles:

Road Tiles and Locations:

Roadblock:

Hazard:

Secret Delivery Location Cards:

Take a Chance:

Location Randomizers:

Setup

Cooperatively build the puzzle and construct your town as follows:

1. Lay the magnetic receptive sheet on your table.
2. Assemble the frame in place.
3. Construct your town as needed.
4. Randomly scatter the building pieces.
5. Connect longer road segments among the buildings.
6. Add the stop signs at choke points like intersections.
7. Ensure all locations are in your town.
8. Fill any holes with smaller road pieces.

With the map completed, prepare to play:

1. Set aside the roadblock and hazard tiles.
2. Randomly place the item tiles on building squares.
3. Give each player a truck to place on any road square.
4. Shuffle the delivery location cards and give each player one location identifier and one location card.

Sample Layout

Game Play

In turn, each player performs the following:

1. Rolls both dice. The number represents the maximum range of truck movement. See below for Doubles Roll exception.
2. Moves their truck in any non-diagonal direction to any desired location within range.
3. Optionally drops off an item from their truck in order to exchange for a better item.
4. If adjacent to an item, optionally picks up the item at that location as long as the maximum items in their truck does not exceed three.
5. If at their secret delivery location, reveals the location cards and moves the item(s) in their truck in front of the player.

Note: Upon collecting an item, flip it upside down in case a player is given a “steal” action.

Note: Each time you play, create a completely different layout. Post your game board images on Instagram with the hash tag **#pluzzables** and tag **@brainy.games**.

Delivery Locations

Your delivery destination is a combination of a random delivery code and a number on a road. Keep your pair of delivery cards secret until your truck reaches its destination.

For example, with the following pair, your secret delivery location is **28**:

Moving Your Truck

Trucks move along the road tiles. You cannot move through a roadblock. Roadblocks can only be removed (or added) through an online action.

You can crash into your opponent's truck to temporarily disable it. Place the triangular hazard tile next to the

truck. The affected player loses their next turn and returns the hazard tile.

Special Actions Upon Double Roll

Whenever a double is rolled, you have the opportunity to either double the truck range or use the web app to generate a random action. Using your mobile device, visit www.Pluzzables.com, navigate to the Deliveries section and activate the web app (delivery.php). Follow the action indicated.

Actions include trading locations with your opponent, stealing an item and more.

Stop Sign – Take a Chance

When your truck lands on or immediately in front of a stop sign, use the web app to perform a random action.

Follow the directions to your advantage.

TAKE A CHANCE

Excellent! You built **TEAM**.
Perform one of these actions ...

MOVE YOUR TRUCK
to location 20.

OR

MOVE OPPONENT'S TRUCK
back 15 spaces.

Ending the Game

When all items have been collected, each player scores the value of their items. Group your items by category.

Groups of two or more related items will yield more points as follows:

2X Double the value of two items of the same category

3X Triple the value of three similar items.

4X Quadruple the value of four related items.

5X Five times the value of five or more similar items.

You cannot combine categories for scoring. Pick the best category to yield the most points.

The winner will have the highest number of points. In case of a tie, the youngest (tied) player will win.

Item Categories

These are the main categories for grouping items for bonus scores:

Appliance, Clothing, Container, Device, Flat, Food, Fun & Games, Furniture, Metallic, Wooden, Musical, Paper, Pet, Round, Same Overall Color, Sporty Item, Tool.

Strategies

Pick up items in the same category for bonus points at delivery. For example, when three food items are dropped off, their point value is doubled to 6 points instead of 3 points. Trade items to increase your delivery score.

More Pluzzables

Scavengers: find and claim items.

Deliveries: Build a town and race to collect items.

This Was War: explore and collect matching vintage war posters, decode secret words.

Letter Boxes: find words hidden in mail boxes.

Maze: build a maze and collect sacks of money.

Collages: find pairs of adjacent items.
